DIARY NOTES

ADD/A

21 July 1952

- 25X1A9a ✓ 1. Mr. Saunders, [REDACTED] and I met with Messrs. Veatch, Macy, and Barber, Bureau of the Budget, and Mr. Garlock, Department of Defense, to discuss reimbursement for military personnel. Mr. Garlock took a very strong stand but statements made by him were grossly inaccurate and, all in all, I think that we made a far better presentation than he did. We agreed to furnish the Bureau of the Budget with a more detailed breakdown of our requirements which Colonel [REDACTED] will prepare and coordinate with Mr. Saunders. We took the stand that we were agreeable to reimbursing the Department of Defense for those people who were called to active duty [REDACTED] but that we were opposed to anything more than this. H
- 25X1A9a 2. Met with [REDACTED] Mr. Saunders, and Mr. Houston at which time I instructed [REDACTED] to develop criteria for the purchase of air conditioning equipment which we could submit to the Bureau of the Budget in order to justify the additional \$350,000.
- 25X1C4a 3. I requested [REDACTED] to prepare a Brief for the Director on our [REDACTED] relationship. They will have a draft ready tomorrow.
- 25X1A9a 4. Asked [REDACTED] to take back the military personnel statistics which he prepared for my discussion with [REDACTED] make some revision and return tomorrow. 25X1A9a
- 25X1A9a 5. Warned Larry Houston to be alert to handle the income tax problems of [REDACTED]. Stuart Hedden is now investigating this.
6. Checked on the status of our funds in [REDACTED]. Found that we had \$510,000 and so advised Frank Wisner. 25X1A6a
- 25X1A9a 7. Talked to Stuart Hedden about the three instructors disapproved by Security. [REDACTED] Mr. Hedden is investigating this for the Director as a result of a very strong letter received from the Dean of the University of Michigan.
8. After a conference with Frank Wisner, instructed Jim Garrison to allow a representative of the WH Division to inspect certain hardware to determine whether we actually had the potential to carry out a certain operation. Told him to make no other moves without my permission.
- 25X1A9a 9. Told [REDACTED] that it apparently took two hours to make temperature and humidity readings in the OSO buildings and asked him to remedy this situation without delay.
